

Notice of Public Community Meeting For a Project Proposal Under the Large Renewable Procurement

The proponent identified below is proposing to submit a proposal to the Independent Electricity System Operator (IESO) to design, build, and operate a Large Renewable Project for the generation of electricity under the IESO's Large Renewable Procurement (LRP).

The LRP is a competitive process for procuring large renewable energy projects generally larger than 500 kilowatts. At the conclusion of the LRP, the IESO may award contracts for successful projects up to the specified procurement targets for each renewable fuel: 300 megawatts (MW) for wind, 140 MW for solar, 75 MW for waterpower, and 50 MW for bioenergy.

This notice is being distributed to notify members of the public of a public community meeting that has been scheduled to discuss the Large Renewable Project proposal. Information regarding the proponent, the Large Renewable Project proposal, and the meeting details are described below.

This public community meeting is being held as part of the early community engagement requirements of the LRP. The public community meeting will present details about the Large Renewable Project and its proposed connection line. Representatives of the proponent will be available to discuss the Large Renewable Project and the overall LRP process. Should this Large Renewable Project be awarded a contract, the Large Renewable Project would need to obtain all required permits and approvals and conduct any further required community engagement activities.

Further details regarding the LRP are available at www.ieso.ca/lrp.

Proponent and the Large Renewable Project proposal

Proponent: Peterborough Utilities Inc.

Qualified Applicant from the LRP Request for Qualifications stage associated with the proponent: Peterborough Utilities Inc.

Name of the Large Renewable Project proposal:

Peterborough Utilities Buckhorn Hydro

Renewable fuel of the Large Renewable Project:

Waterpower

Proposed capacity of the Large Renewable Project (MW):

1.5 – 2.5 MW

Proposed connection point of the Large Renewable Project:

Hydro One M27 Otonabee DESN2 TS Circuit at Buckhorn Road

Proposed location of the Large Renewable Project and proposed connection line

The project is to be located in the Township of Selwyn and the Municipality of Trent Lakes, in the County of Peterborough, at or near Lock 31 of the Trent-Severn Waterway, with the proposed Connection Line running southeast along Buckhorn Rd to the proposed Connection Point (see map).

Public community meeting information

Date: July 13, 2015

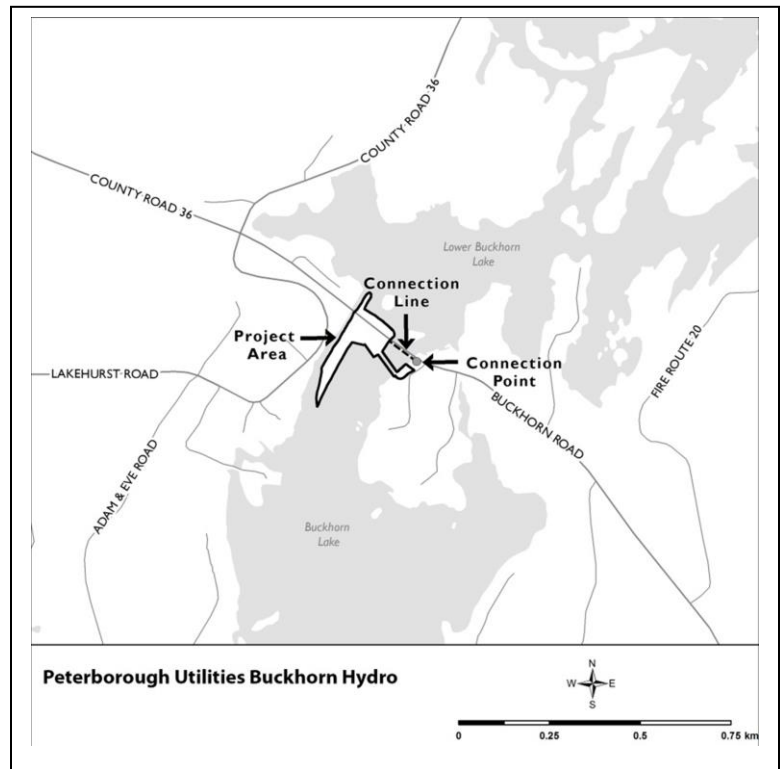

Time: 5-9pm

Location: Lakefield District High School (Single Gym), 71 Bridge Street, Lakefield ON

Date: July 16, 2015

Time: 5-7pm

Location: Buckhorn Community Centre, 1782 Lakehurst Road, Buckhorn ON
